## **Wildfires in Carmel Valley?**

In the summer of 2016 the Soberanes Fire burned almost 30 percent of the Carmel River Watershed, and approached Carmel Valley before finally being contained just a few miles away. Many Valley residents watched with trepidation as the fire burned...

## Watch for New Interpretive Signs!

The Conservancy previously installed 22 interpretive signs in the watershed, which had been permitted by the County. However, in talks with members of the Carmel Valley Roads Committee and the Land Use Advisory Committee (LUAC), we became aware...

## **San Clemente Dam Site Tours Fully Subscribed**

CRWC with a grant from American Water launched a series of tours of the former San Clemente Dam site in 2017 to inform participants of all aspects of the San Clemente Dam Reroute and Removal Project that was completed in 2016. At the time, it was ...
